

Extreme Terrain Vehicle-Mobile Utility Terrain Transport - Army

Proposed Recipient: Georgia ATM, Inc.

Address of Recipient: 2025 White Springs Road, Glenwood, Georgia 30428

Amount of Request: \$3.5 Million

Explanation of Request

Purpose: To support extreme terrain access and provide the all terrain vehicle mobility requirements desired in support of the Global War on Terrorism. The ETV-MUTT is specifically designed as a “go anywhere” Extreme Terrain Vehicle with the capability to transport a team/crew of eight (8) and a payload of critical mission essential equipment up to 1820 pounds into remote areas considered inaccessible for general patrol vehicles with four-wheel drive capabilities.

Why is it a good use of Taxpayer funds: The MUTT vehicle provide benefits to the U.S. Military that include increased mobility, improved safety enhancements (rollover protection), and increased capabilities. The end user evaluations of the MUTT vehicles will ensure that built-in safety, reliability, and durability features fully meet the important needs of soldiers deployed to remote operational environments like Afghanistan and Iraq.
